Image of the Lincoln Branch

The background of the entire page is a faded, light-colored photograph of a library or community center. In the upper left, two men are standing and talking; one is holding a folder. In the center, a woman with her back to the camera is looking at a computer monitor. To the right, another person is partially visible. In the foreground, a computer monitor displays a website, and a person's hands are visible typing on a keyboard. A white rectangular box with rounded corners is overlaid on the left side of the page, containing the following text.

The Detroit Public Library is pleased to offer a robust selection of computer classes for customers. Library locations throughout the city provide technology instruction on a wide range of topics, from group classes to one-on-one assistance. In this catalog, you will find courses from basic computer skills, to Microsoft Office software, an introduction to the internet, to help searching and applying for jobs online. The classes are arranged by topic, and within that by library location and date and time. Each section of classes has their own QR code which will allow you to register. If you have questions about specific courses, please contact the library branch hosting that class. For the most up-to-date information please visit our website at: www.detroitpubliclibrary.org

COMPUTER LITERACY (CON'T)

Basic Computer Skills Class

An 8-week class that covers the basics computer use such as saving and managing files, using a web browser, email, and more. The class starts over again from the beginning at the end of every 8-week session.

Main Library TLC Lab

Every Friday: 2:00 – 3:00 pm
Every Saturday: 1:00 – 2:00 pm
Last class of the year on December 19

Everything You Need to Know About Computers

Join us every week as our technology specialist leads an in-depth community conversation about a different technology-related topic chosen by YOU. Learn how to spot online scams, how to easily keep track of your passwords, how to keep your old phone working longer, and more!

Franklin Branch

Tuesdays, October 6, 13, 20 & 27; November 3, 10, 17 & 24;
December 1, 8, 15, 22 & 29: 5:30 – 7:00 pm
No signup required and no experience necessary

Laptop Basics

Learn more about laptops or brush up on your knowledge as we cover the basic features and functions of laptops. Laptops will be provided for the class, but you are also welcome to bring your own.

Campbell Branch

Thursdays, October 15, November 12 & December 10:
1:30 – 2:00 pm

Navigating Windows

Learn the basics of navigating modern Windows computers, as well as some tips and tricks to help you improve your computing productivity.

Main Library: TLC Computer Lab

Saturdays, December 5, 12 & 19: 2:30 – 3:30 pm

COMPUTER LITERACY (CON'T)

From Parts to Power Up—PC Building Basics

In this immersive PC building course, delve into the intricate world of computer hardware assembly. In this hands-on workshop, participants will have the opportunity to explore each component of a computer, from motherboards to CPUs, RAM, storage drives, and more.

Main Library: Popular Library

Saturdays, October 10 & 24; November 14 & 28;
December 12 & 26: 3:00 – 4:00 pm

Mobile Devices, Smartphones and More!

Android Smart Phone Learn & Lab

This 4-week series will cover both the basic functions and advanced features of your Android Smart Phone. A different topic will be covered each week. This 4-week program starts over at the beginning of each month.

Main Library: TLC Computer Lab

Every Tuesday, October – December: 3:00 – 4:00 pm

Dumb Down Your Smartphone

Are you feeling addicted to your smartphone? Have you heavily considered switching back to a Y2K era Nokia brick phone? We have found ourselves living in a highly connected world where cell phones are a necessity. Because of this, many people have found themselves looking for ways to disconnect. In this class we will discuss some of the different approaches you can try to “dumb down” your phone.

Main Library: TLC Computer Lab

Wednesdays, November 4, 18 & 25: 2:30 – 3:30 pm

COMPUTER LITERACY (CON'T)

Mobile Devices

Get started with smartphones and tablets! Explore your mobile device—learn new features and essential settings to better assist with your daily activities. Learn to set up your device and essentials such as connecting to Wi-Fi, sending messages, emailing, downloading apps, taking photos, and browsing the internet.

Campbell Branch

Mondays, October 5 & 12; November 9 & 16; December 7 & 28:
5:00 – 5:30 pm

Conely Branch

Tuesdays, October 13, November 10, December 8 & 22:
1:00 – 2:30 pm

Duffield Branch

Thursday, October 22 & November 12: 5:30 – 6:30 pm

Mobile Devices: Beginner's Tips N' Tricks

A class to help you manage your mobile device. Learn some basic tips to help you make the most of your phone or tablet.

Parkman Branch

Mondays, October 5, November 2 & December 7: 12:30 – 1:30 pm

Mobile Devices for Seniors

An introduction for senior citizens to explore your mobile touchscreen device, from tablets to smart phones. Tips and tools to operate your iPhone or Android device. Learn new features and essential settings to better assist with your daily activities.

Sherwood Forest Branch

Tuesday, November 24: 1:00 – 2:00 pm

COMPUTER LITERACY (CON'T)

New Year, Organized Phone!

Start the new year with a cleaner, faster smartphone. Learn how to organize apps, delete clutter, free up storage, and improve battery life. Topics include: managing storage, removing unused apps, organizing photos, battery-saving tips, and updating software.

Douglass Branch

Wednesdays, December 2 & 9: 4:00 – 5:30 pm

Smartphone Basics

Get comfortable with the everyday features of your smartphone, from calling and texting to using apps, taking photos, and managing settings.

Main Library: BST Reading Room

Thursdays, October 1, 8, 15, 22 & 29: 4:30 – 5:30 pm

Keyboard Confidence: Typing Basics for Beginners

Want to feel more comfortable using a computer? This beginner-friendly typing class is designed to help build keyboard skills at your own pace. Learn proper finger placement, practice common typing techniques, and gain confidence using a keyboard for email, online forms, documents, and everyday computer tasks. No experience is necessary.

Douglass Branch

Mondays, November 2, 9, 16 & 23: 4:00 – 5:30 pm

Week 1: Keyboard basics and home row

Week 2: Letters, capitalization, punctuation

Week 3: Typing emails and documents

Week 4: Speed, accuracy, and online typing games Franklin Branch

MICROSOFT OFFICE

Microsoft Word

Learn the fundamentals of Microsoft Word, including creating, opening, saving, and printing documents. Additional operations such as editing, formatting, and utilizing the toolbar will be addressed. Master Word for various practical uses, from writing letters, to creating resumes, and more.

Campbell Branch

Mondays, October 18, November 29 & December 19:
5:00 – 6:00 pm

Lincoln Branch

Saturday, November 14: 2:00 – 3:30 pm

Parkman Branch

Thursdays, October 15, November 12 & December 10:
10:30 – 11:30 am

Level Up Microsoft Word

Enhance your proficiency in Microsoft Word by going beyond beginner skills! In this class we'll discuss using tables, headers & footers, styles, and sections to take your documents to the next level. If you need to create a more complex document like a resume, research paper, or book, this class is for you.

Main Library TLC Lab

Saturdays, November 7, 14 & 21: 2:30 – 3:30 pm

Microsoft Excel

Discover spreadsheets using Microsoft Excel—learn about cells, columns, and rows. Create, save and print your workbook. Go more in-depth by inputting formulas, manipulating cells and sorting data.

Parkman Branch

Thursdays, October 29, November 19 & December 17:
10:30 – 11:30 am

Redford Branch

Tuesdays, October 20, November 17 & December 15:
10:30 am – Noon
Wednesdays, October 21 & November 18: 6:00 – 7:30 pm

MICROSOFT

MICROSOFT OFFICE (CON'T)

Microsoft PowerPoint

Create slideshows and presentations with Microsoft PowerPoint. Discover templates, adding text and pictures, and even audio. Learn how to add transitions and animations for a dynamic presentation.

Lincoln Branch

Saturday, December 12: 2:00 – 3:30 pm

INTERNET

INTERNET APPLICATIONS

Internet Basics

Learn the fundamentals of the internet and how to navigate it with ease! You'll learn how to search for information, send emails, download files, protect your personal information, avoid online threats and stay safe while browsing the web.

Franklin Branch

Mondays, October 26, November 30 & December 28:
4:30 – 5:30 pm

Cloud Storage Basics

Discover how cloud storage can help you keep important files organized, backed up, and easy to access from anywhere. Learn the basics of uploading, sharing, and managing files online.

Main Library: BST Reading Room

Fridays, November 6 & 20: 4:00 – 5:00 pm

Get Organized Online

This basic introductory course will teach you how to store, manage, and organize important files (documents, videos, audio, etc.) on a cloud server from a phone, computer, and tablet for future backup and convenient access no matter where you are. You will also learn how to keep your information safe and secure by using strong passwords, multi-factor authentication, and digital encryption.

Jefferson Branch

Saturday, November 21: 11:00 am – Noon

Google Docs 101

Learn how to use Google Docs to create, edit, store, and manage documents across computers and mobile devices in this introductory class.

Jefferson Branch

Saturday, October 10: 11:00 am – Noon

Social Media

Learn how create and manage social media such as Facebook and Instagram to connect with family and friends. Discover how to set up profiles, share updates, post photos, and adjust privacy settings. Build confidence in navigating social media while ensuring a safe and enjoyable experience.

Sherwood Forest Branch

Thursday, October 15: 1:00 – 2:00 pm

The History of Social Media and Evolution of the Algorithm

In 2026, algorithm-fed social media is so woven into the fabric of our everyday lives that for many, when Facebook or TikTok goes down, it feels like something is missing. Social media has been widely used since the early 2000s, but did you know that primitive forms have been around since the 1960s? Come learn about the evolution of social media and how the algorithm that determines everything it shows us came to be.

Main Library: TLC Computer Lab

Wednesdays, December 2, 9 & 16: 2:30 – 4:00 pm

Everything AI

A.I. made E-Z: What is generative A.I. and how does it work?

Curious about artificial intelligence? In this class, we aim to explain how artificial intelligence works with easy-to-use concepts and then demonstrate what one of these programs (ChatGPT) can do.

Parkman Branch

Wednesday, October 21 & Monday, November 23: 5:00 – 6:00 pm

Introduction to Generative AI

This class will cover things you won't find in an ordinary how-to guide, including how AI works under the hood, what makes a computer program "AI" to begin with, and discover the strengths and weaknesses of current AI models. At the end there will be a demonstration and Q&A.

Main Library: TLC Computer Lab

Saturdays, October 3, 10 & 17: 2:30 – 3:30 pm

What is AI? Understanding Artificial Intelligence Without the Hype

Artificial intelligence is becoming part of everyday life, but what exactly is it? This beginner-friendly program explores how AI works, common myths and misconceptions, privacy and safety considerations, and how to recognize AI-generated content. Learn what AI can do, what it cannot do, and how to use it responsibly in today's digital world.

Douglass Branch

Mondays, October 5 & 19: 4:00 – 5:30 pm

AI and Voter Suppression

Learn how to protect yourself and your vote against AI content intended to spread disinformation.

Main Library: TLC Computer Lab

Thursday, October 1: 1:00 – 2:00 pm

Thursdays, October 15 & 29: 3:00 – 4:00 pm

Darker Side of AI

Artificial intelligence is an idea that has been speculated in science fiction for over 150 years. In the last few years AI has been brought to life through applications such as ChatGPT, Grok, DALL-E, and Character AI. Many have spoken about the benefits of these programs, but what about the negatives? In this series, we will cover the darker aspects of this emerging technology from its impact on your brain to the toll it takes on the environment.

Main Library: TLC Computer Lab

Fridays, October 2 & November 6: 3:00 – 4:30 pm

Good-Bye AI: Disabling Artificial Intelligence

This informative class explores how to reduce, limit, or disable AI features in everyday technology. Participants will learn the practical steps for turning off AI-powered tools on devices, applications, and online services.

Main Library: TLC Computer Lab

Monday, October 19: 2:00 – 3:00 pm

Thursday, November 19: 2:00 – 3:00 pm

Save 10 Hours a Week with AI Tools

The flagship introductory workshop. Covers the “Step-Zero” guide, the “Hamburger Analogy” for prompting, and safe, practical workflows using ChatGPT and Claude for everyday tasks.

Main Library: TLC Computer Lab

Thursday, October 22: 2:00 – 3:00 pm

Using AI to Build Tools (Without Writing Code!)

An advanced, empowering session where patrons learn to use AI to write code, build simple web tools, and automate tasks using plain English instructions.

Main Library: TLC Computer Lab

Monday, November 9: 2:00 – 3:00 pm

Archive Adventure Lab—Historical Newspapers

Dive into old newspaper archives to uncover gripping headlines, quirky ads, and forgotten stories. Through engaging activities, participants will explore history, spark curiosity, and bring the pages of Detroit’s yesteryear to life. Perfect for history buffs and budding detectives alike!

Main Library: Popular Library

Saturdays, October 3 & 17; November 7 & 21; December 5 & 19:
3:00 – 4:00 pm

Boxes in the Attic: Let’s Organize and Digitize!

In this class, participants will learn how to organize, find, and take back ownership of their impressive home collections. Participants will also learn how to digitize and manage precious family photos using the library’s free facilities.

Main Library: TLC Computer Lab

Tuesday, October 13: 2:00 – 3:00 pm

Create with Canva!

Canva 101

This basic introduction to Canva will teach you how to use the platform to create personalized cards, flyers, stationary and more to print out or post on social media.

Jefferson Branch

Saturday, December 5: 11:00 am – Noon

Halloween Cards with Canva

Learn how to use Canva to make a spooky greeting for your favorite ghost or goblin. We will print one color copy of your card at the end of the session for you to take home.

Main Library: TLC Computer Lab

Wednesdays, October 21 & 28: 2:30 – 3:30 pm

TECHNOLOGY (CONT.)

Create Your Own Holiday Cards with Canva

Learn how to use Canva to create your own personalized holiday cards. Participants will go home with two copies of their own creation.

Main Library: TLC Computer Lab

Monday, December 7, 2:00 – 3:00 pm

Draft Day: Build Your Winning Yahoo Fantasy Team

Jump into the exciting world of fantasy sports by learning how to use the Yahoo Fantasy Sports app to create your very own team and league. In this hands-on class, participants will build a fantasy roster, learn the basics of drafting and scoring, and explore how private and public leagues work. Perfect for beginners looking to turn sports knowledge into strategy and fun competition.

Conely Branch

Tuesdays, October 27, November 24 & December 29:
6:00 – 7:30 pm

Get Ready for Your Telehealth Visit

Learn how to prepare for online medical appointments and important tools in common online health records systems, such as MyChart.

Main Library: TLC Computer Lab

Thursday, November 5: 3:00 – 4:00 pm

TECHNOLOGY (CONT.)

Stay Safe Online

Online Privacy and Security

Learn how to protect your information and stay safe online.

Main Library: TLC Computer Lab

Thursday, November 5: 2:00 – 3:00 pm

Parental Controls

Learn about the different parental controls you can use to help monitor and protect your child on various devices and platforms.

Main Library: TLC Computer Lab

Classes that take place in the HYPE Teen Center and are for teens ages 13 – 18.

CHILDREN

FOR CHILDREN AND TEENS

Movie Poster Studio

(Homeschool Program)

Tuesdays, October 6, November 3 and December 1:

1:00 – 3:00 pm

Teens explore the art of iconic movie posters while developing their creative design skills. Each month, participants will watch a film or clips and create an alternative poster inspired by the story, characters, or key moments. Using traditional supplies like markers and paint, or digital platforms like Canva, they'll redesign posters from their unique perspective, learning how graphic design and visual storytelling influence audiences.

3-D Printing Workshop: Spooky Theme

Fridays, October 2, 9 & 16: 4:00 – 5:00 pm

Learn how to create and print your own 3D Prints using our Bambu A1 3D printers.

Dream It. Build It: Vision Board Studio

Fridays, October 23 & December 4: 4:00 – 5:00 pm

Turn your goals into a visual masterpiece! Teens create personalized vision boards using magazines, art supplies, digital tools, and creative materials to map out their dreams, aspirations, and future plans. From college and careers to personal growth and travel goals, participants will leave with a motivational reminder of what they are working toward.

Design Lab: Halloween

Saturday, October 10: 2:00 – 3:30 pm

A creative, hands-on workshop where teens can design their own custom gear using a Cricut machine. Personalize tote bags, shirts, and more with fun graphics and vibrant colors.

CHILDREN

FOR CHILDREN AND TEENS

Entrepreneurship Training Workshop

Saturday, October 24: Noon – 1:30 pm

A She Dreams Entrepreneur Lab program where they teach youth the basics of starting and running a business. Participants learn about business ideas, budgeting, marketing, customer service, and leadership through fun, hands-on activities that help build confidence, creativity, and real-world skills.

Podcasting Workshop

Friday, November 6: 4:00 – 5:00 pm

Join us for an hour of podcasting. We'll have fun conversations about life, school, hobbies, and more.

Crochet Club

Tuesdays, November 10, 17 & 24: 4:00 – 5:30 pm

Tuesdays, December 8, 15, 22 & 29: 4:00 – 5:30 pm

Hands-on crochet workshop where you can learn how to crochet and unleash your creativity through the fusion of technology and art!

Rug Creations

Saturday, November 14: 2:00 – 3:30 pm

Get creative and make it your own! Teens will use colorful yarn and punch needle techniques to create a one-of-a-kind rug. Choose your colors, create your own style, and turn your ideas into something cool you can take home!

Resume Workshop

(Located in TLC Computer Lab)

Saturday, November 28: 2:00 – 3:00 pm

In this interactive workshop, teens will learn how to craft a resume and cover letter that highlights their skills, experience, and achievements. Through hands-on activities, they will explore key components of a strong resume, proper formatting, and effective writing techniques. They'll also discover how to tailor their cover letters to different opportunities and make a great first impression on potential employers or colleges.

Design Lab: Christmas

Saturday, December 12: 2:00 – 3:30 pm

Join us for a creative, hands-on workshop where you can design your own custom gear using a Cricut machine. Personalize tote bags, shirts, and more with fun graphics and vibrant colors.

Work Ready: Job Applications

(TLC Computer Lab)

Saturday, December 26: 2:00 – 3:00 pm

A hands-on workshop where teens will learn how to fill out job applications, talk about their skills (even without experience), real examples, practice application, apply for part-time jobs with confidence.
