www.detroitpubliclibrary.org

The Detroit Public Library is pleased to offer a robust selection of computer classes for customers. Library locations throughout the city provide technology instruction on a wide range of topics, from group classes to one-on-one assistance. In this catalog, you will find courses from basic computer skills, to Microsoft Office software, an introduction to the internet, to help searching and applying for jobs online. The classes are arranged by topic, and within that by library location and date and time. Each section of classes has their own QR code which will allow you to register. If you have questions about specific courses, please contact the library branch hosting that class. For the most up-to-date information please visit our website at: www.detroitpubliclibrary.org

DREAM MACHINE
**AI x LIBRARY
PROJECT**

AI x Library: Detroit October 11 & 12

The Dream Machine **AI x Library Project**, in partnership with **Google**, is coming to Detroit as part of a **national campaign to future-proof our community spaces**. Over two days, we'll bring together **community members, local leaders, and innovators** for conversations, workshops, and hands-on sessions focused on **innovation, creativity, and building inclusive futures with AI**.

A highlight of the Detroit stop will be the **Future of Work Workshop**, where community members and local innovators will explore how A.I. is changing jobs, skills, and opportunities — and how Detroit can lead the way in shaping a more inclusive, tech-driven future. Participants will also have the chance to **try out A.I. tools** and imagine real-world ways they can be used to strengthen their communities.

Workshops Offered:

- The Future of Work: Explore AI's impact on career pathways and how to prepare for the jobs of tomorrow.
- Smart Prompting for Business Success: Learn how entrepreneurs can use AI tools for planning, marketing, and growth.
- AI & Creativity: Experiment with AI as a creative tool for art, design, and innovation.
- AI-Enhanced Writing: Support for entrepreneurs, freelancers, and community members using AI to assist with grant writing and business planning.
- Marketing with AI: Hands-on strategies to boost branding, social media, and customer engagement using AI.

COMPUTER LITERACY

Receive an introduction to the computer and learn basic skills, or brush up on your knowledge with a refresher course.

“Ask a Tech” Tutorials

Offering one-on-one computer assistance. Explore topics and ask questions on your specific issues with the assistance of a Technical Training Associate.
