Please see the following response to questions submitted:

Question 1: Are the locations accessible with a ladder/scaffolding or is there a possibility that some of them will require a lift to reach the height for installation?

Response: Yes, a 25' ladder should be sufficient for all locations, however, a lift may make it easier to install and remove banners.

Question: Will the banners require frame systems, if so are frames already in place?

Response: The banners should be installed via brackets, as no frame system is currently in place.

Question: If no framing systems are required, what is the preferred installation method?

Response: The banners should be installed via brackets.

Question: How many locations will be included?

Response: There are 17 locations throughout the City of Detroit.

Question: How many banners will be at each location?

Response: One (1) banner will be installed per location.

All other instructions and provisions of the IFB remain unchanged.

This addendum shall be acknowledged and included with your bid response. Please be advised that failure to acknowledge this addendum may result in rejection of your bid.
